THE CARROT CARTEL.

A playful storefront
for pets and their people.

WEBSITE CASE STUDY

A little store.
A lot of personality.

We created The Carrot Cartel's logo, branding, website imagery and banners, then brought them together in a Shopify storefront for rabbit and small-pet owners.

- Brand identity & logo
- Website imagery & banners
- Shopify design & build

THE STORY BEHIND THE MARK

Two real bunnies. One original identity.

We designed the logo around the client's two real rabbits, giving their personalities a lasting place in the brand.

HAPPY PETS. HAPPIER HOOMANS.

THE CARROT CARTEL / ORIGINAL LOGO

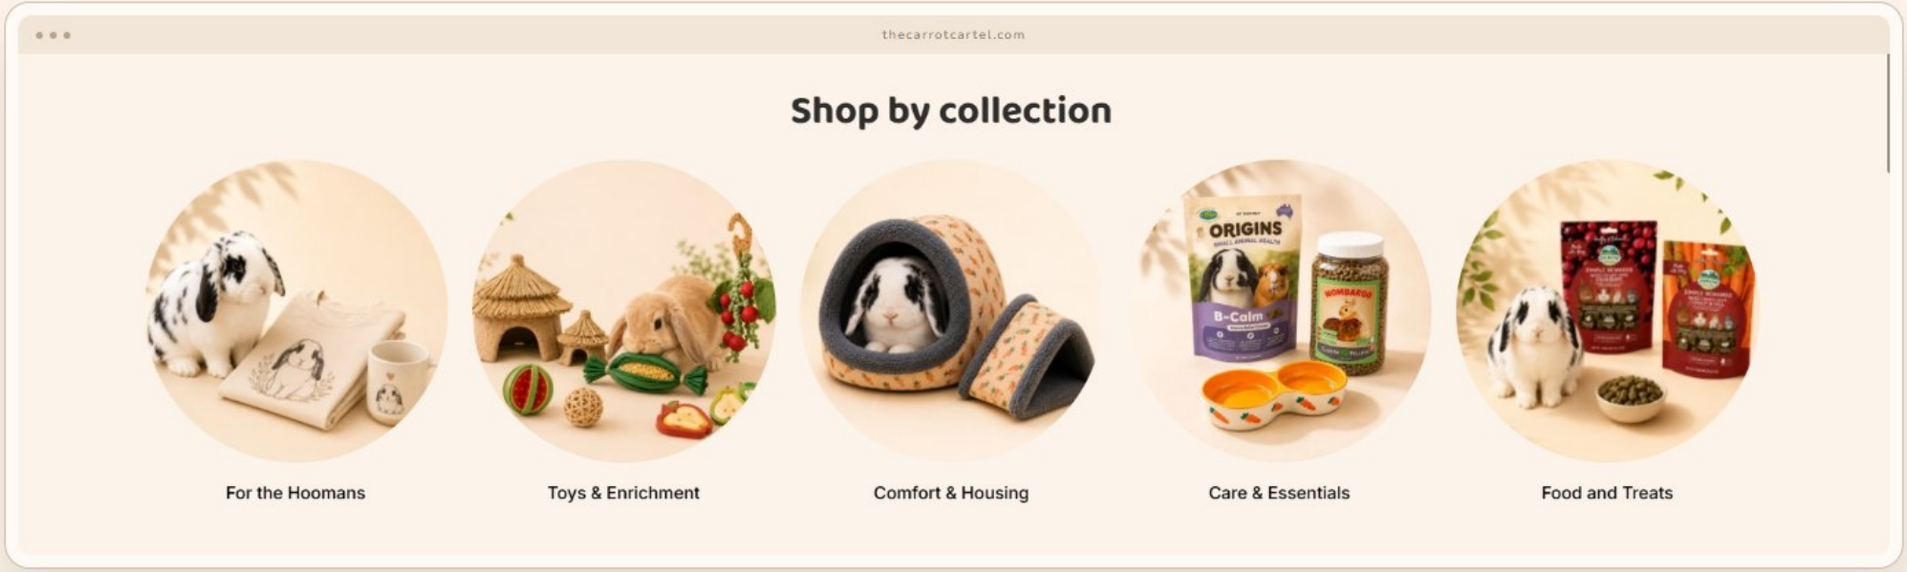

A brand, beyond the browser.

Our identity system carries across packaging, stationery, merchandise and the website.

Make browsing feel simple.

We needed to give treats, toys, housing and care essentials a clear place in the store. The challenge was balancing a playful brand with product information shoppers could scan.

A CLEAR ROUTE INTO EVERY COLLECTION.

Warmth, with direction.

We paired cream backgrounds and carrot orange with rounded headings, generous product imagery and clear collection links. Repeated buttons and consistent cards give the pages a familiar rhythm.

“The store should feel as friendly as the brand behind it.”

Review the basket. Keep the context.

The drawer brings product lines, quantities and the checkout action into view without leaving the product page.

A clear view of the basket.

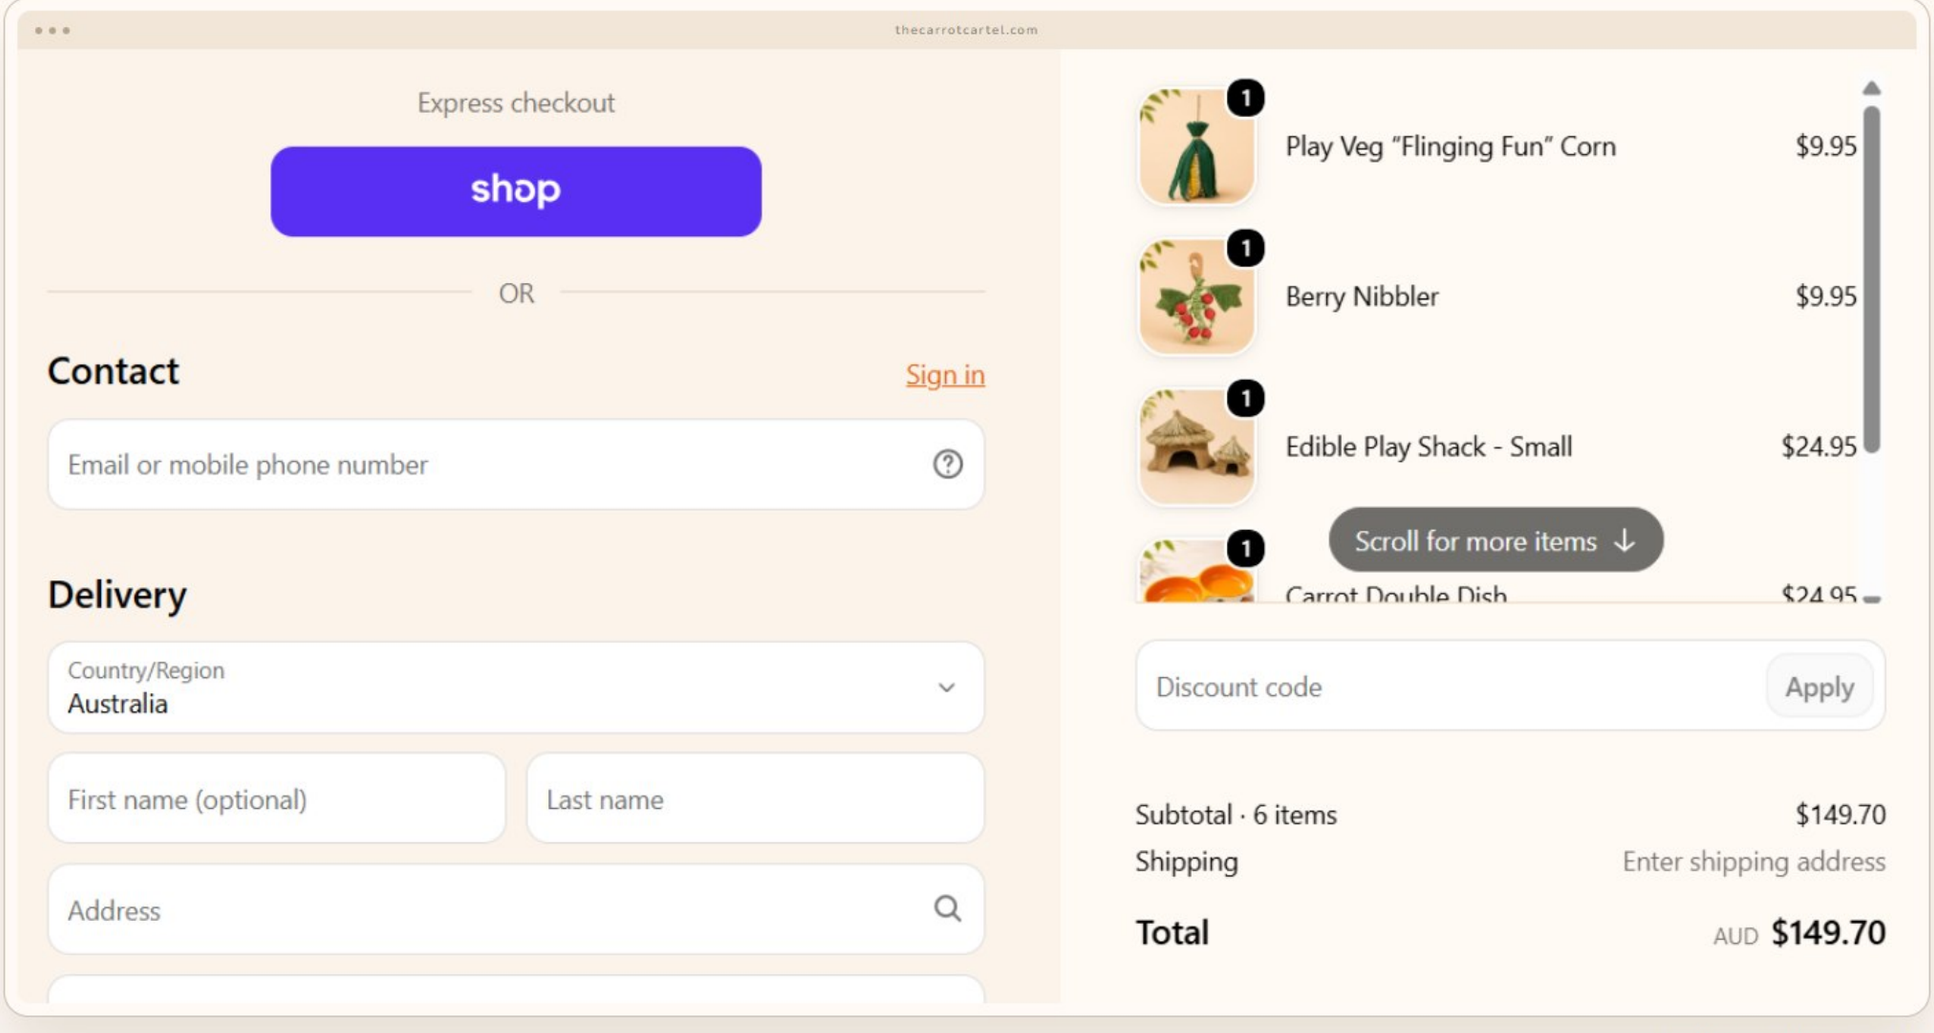

Product lines, quantity controls and the order summary keep the next action easy to find.

CART PAGE / ITEMS & ORDER SUMMARY

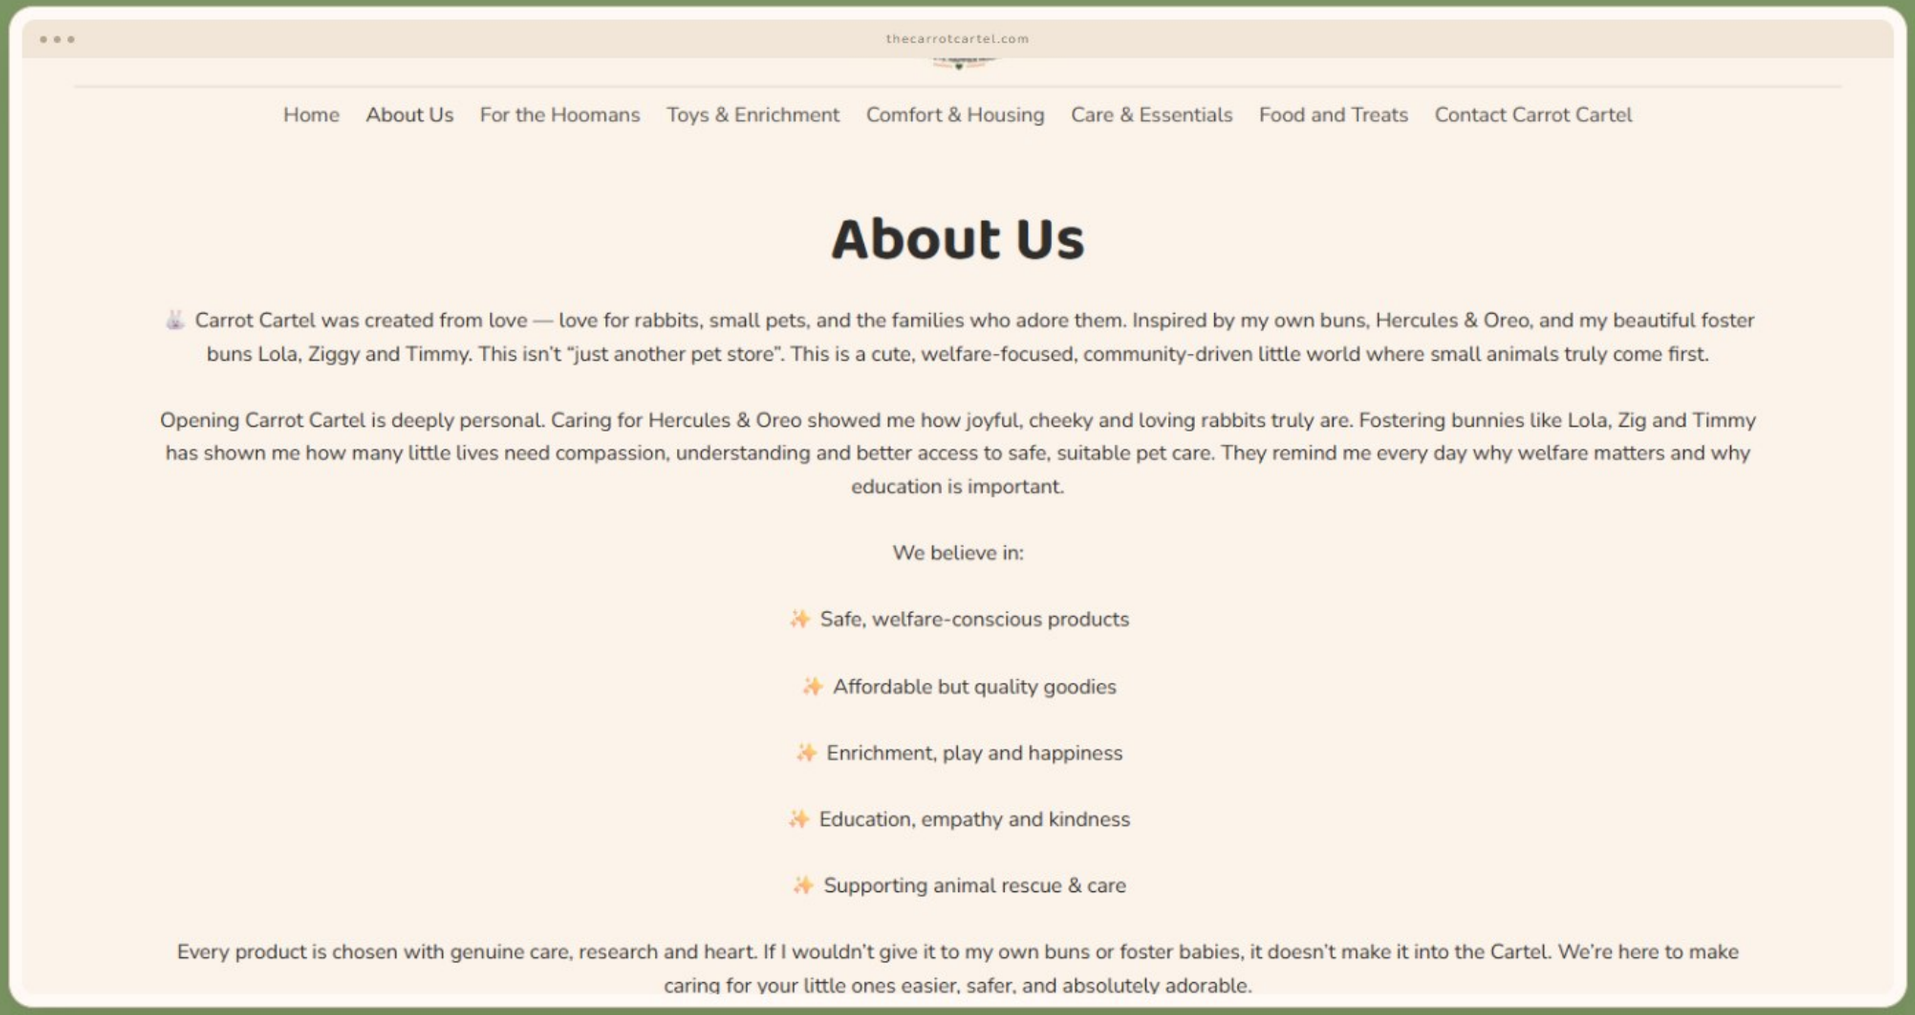

The final step, clearly presented.

Contact, delivery details and order totals share a focused, branded checkout.

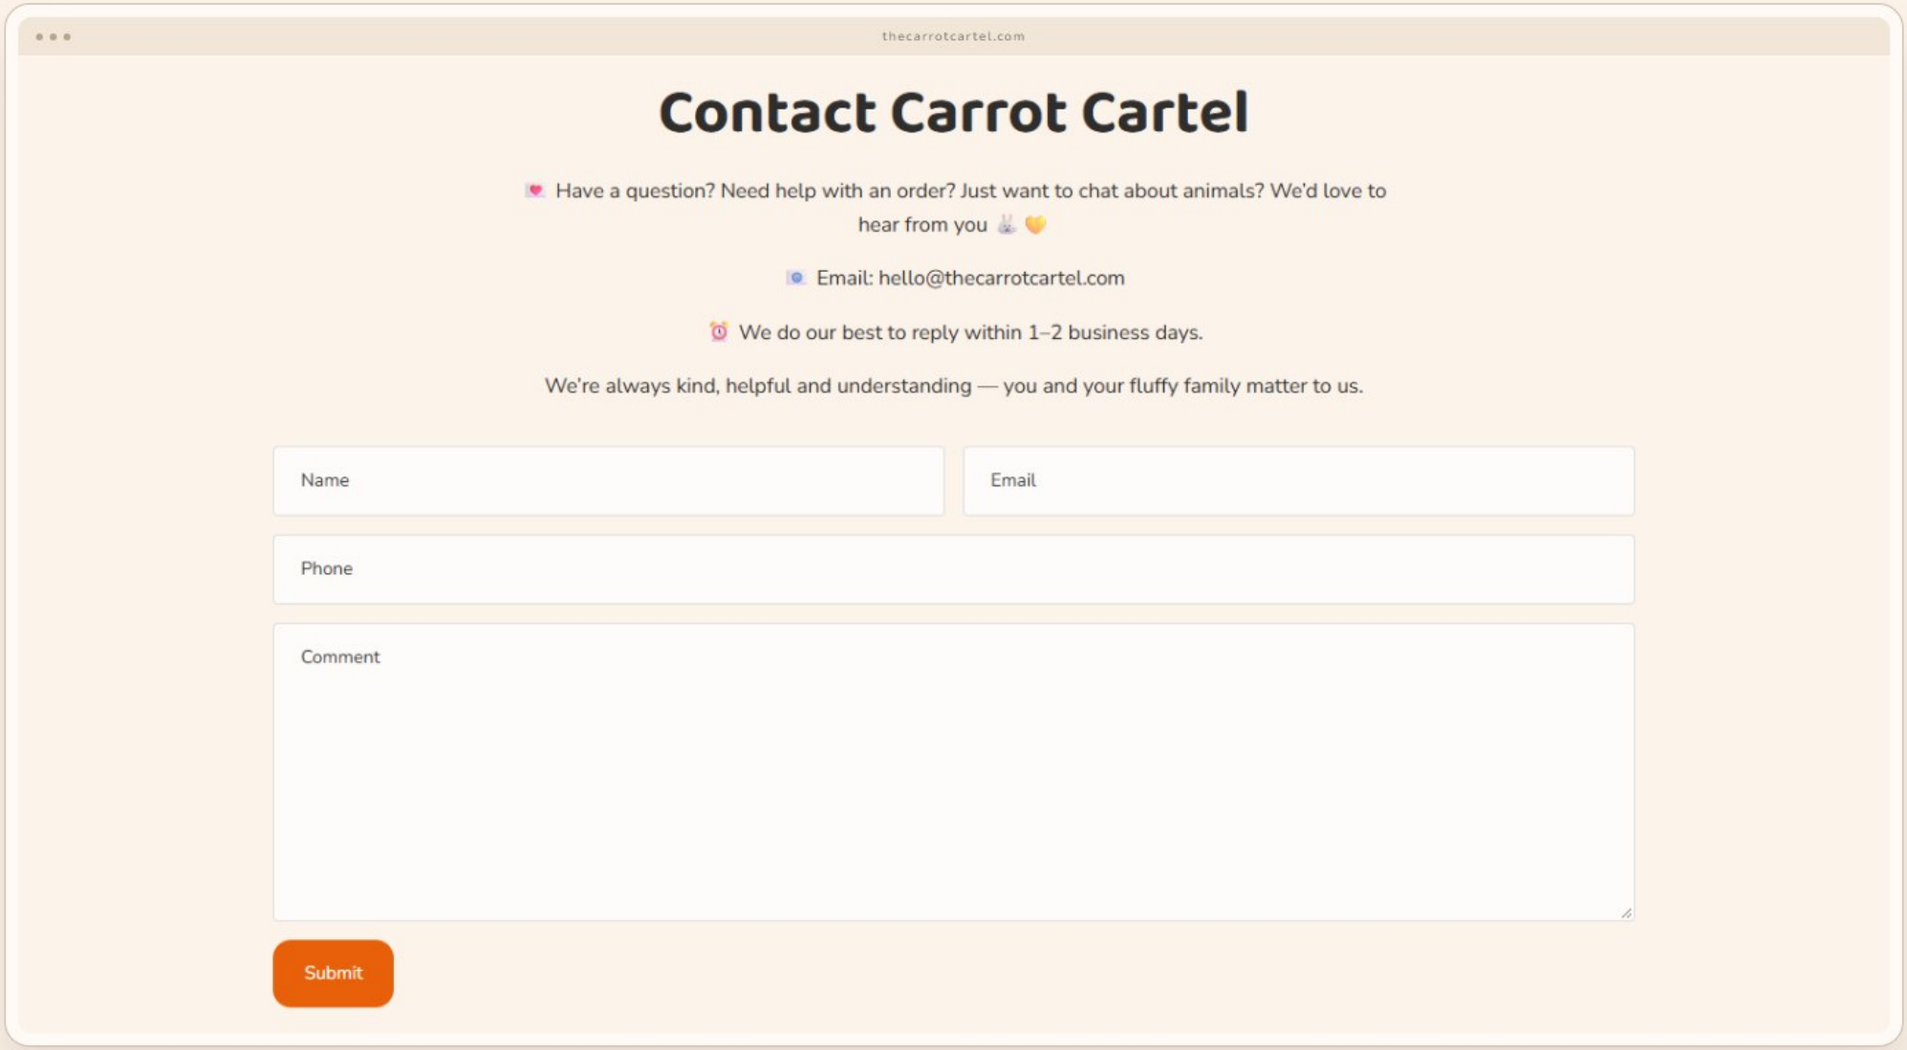

A story with heart.

The About page gives the store a human voice and explains the care behind the range.

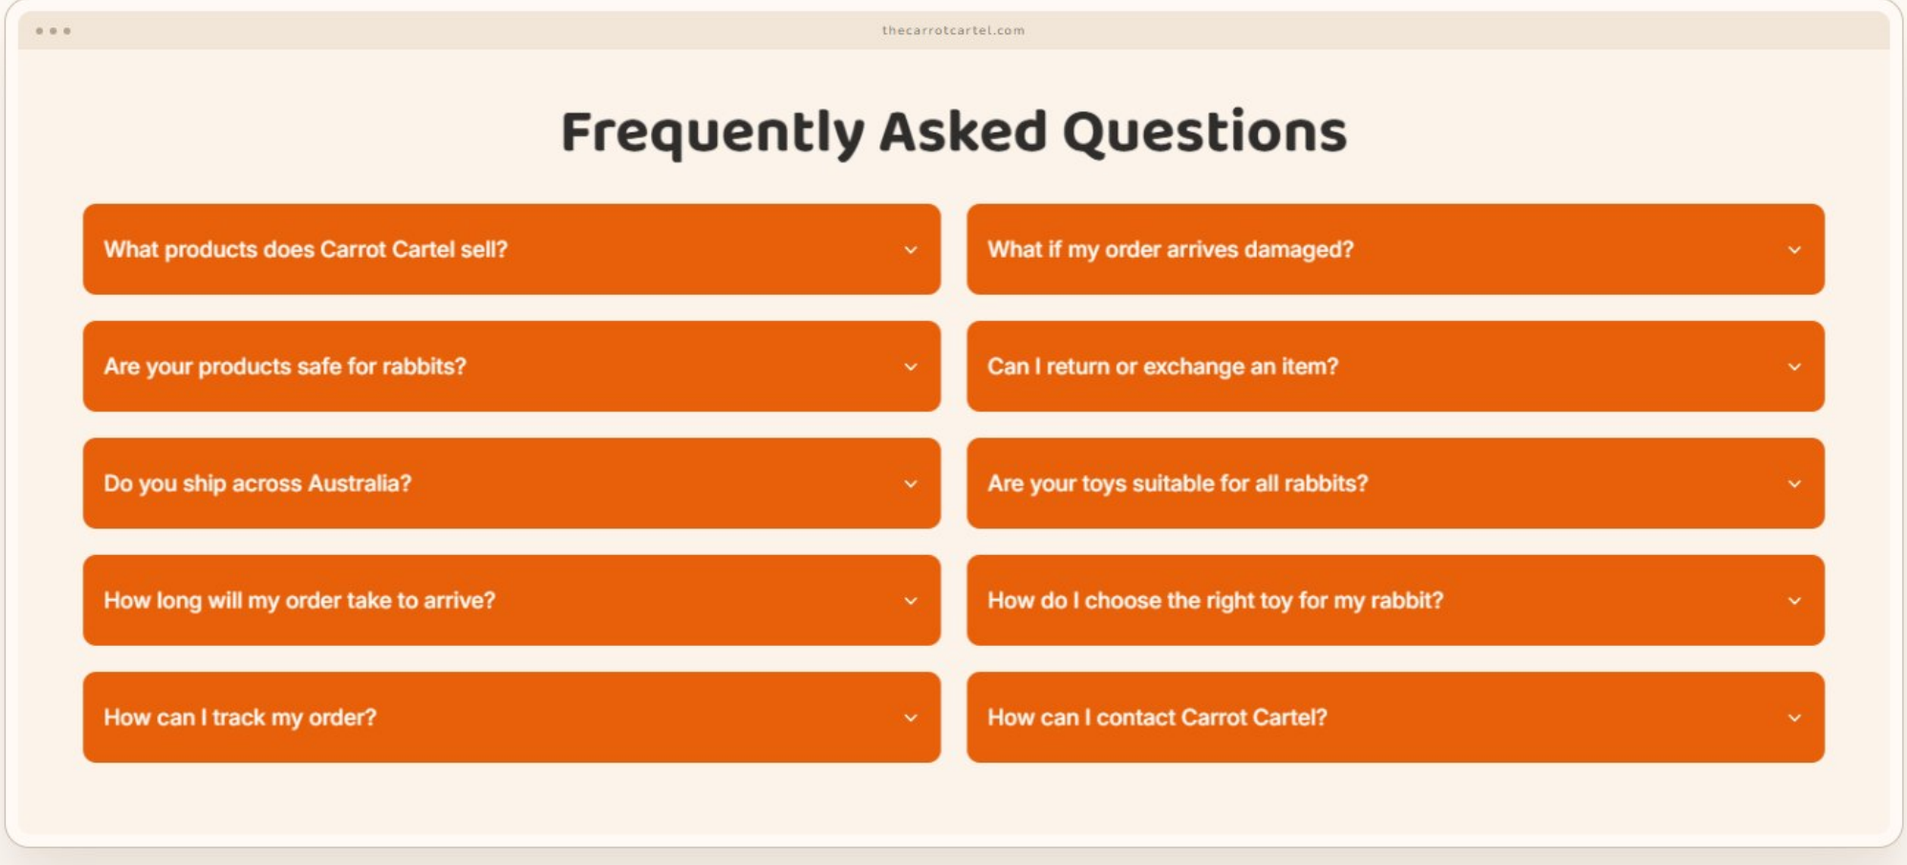

A clear place to reach out.

The Contact page gives shoppers a direct route to the team.

Helpful beyond the basket.

FAQs give common questions about products, delivery and returns a clear place to live.

A storefront with a clear personality.

From the original logo to the storefront, cart and checkout, the project carries one connected identity. We designed the brand system, imagery and banners around the client's two rabbits.
